

ACD *fotoangelo* 2.0™

Easy-to-use Slideshow, Screensaver and Presentation Creator

Create Multimedia Photo Shows You Can Share ...from Your Still Images

More than just a slide show, a photo show from ACD FotoAngelo™ combines audio, text and images. It's quick and easy to make!

Just select your images, add optional background audio and stylish transitions, then preview or save. Share your show on your computer, burn to a CD or send via e-mail to friends, customers and colleagues. They don't need FotoAngelo for viewing. Plus, make personalized screen-savers from your images.

With ACD FotoAngelo, dazzling shows of special events or portfolios are a snap!

ACD FotoAngelo is available as a standalone product or as a plug-in to ACDSave™. Also in ACDSave PowerPack.

ACD FotoAngelo™ 2.0 Highlights

Create shows in 4 steps

- 1 Choose the images you want
- 2 Optionally, choose background audio, colors or title slides
- 3 Select one or more stylish transitions from over 20 available, including Sparkle In, Fade In, Roll In and Jigsaw
- 4 Preview or save as a slideshow or screensaver

Work quickly

- Create an entertaining presentation in seconds or minutes
- Make photo presentations faster than with other presentation software
- Perfect for playing back scenes from events and trade shows as they happen

Use virtually any image

- Include images and sound files in popular formats - and in over 40 formats when used with ACDSee or ACDSee PowerPack

Specify playback options

- Share your presentations as executable files with anyone - they don't need ACD FotoAngelo to view them
- Select manual or pre-timed automatic playback
- Set specific timings for slides
- Play back in full screen mode or at a specific size

Get creative

- Choose your favorite background color for the entire show, or a different color for each image
- Add text to slides to entertain and inform your audience
- Create watermark text that appears on all slides
- Add one or more music or audio files to enhance your show
- Add sound effects to specific images or play an image's associated audio clip

Available as a standalone product or a plug-in to ACDSee
