

Adobe® PageMaker® 7.0

Business publishing made easy

Adobe PageMaker 7.0 software is the ideal page layout program for business, education, and small- and home-office professionals who want to create high-quality publications. Get started quickly with templates, graphics, and intuitive design tools; work productively across Adobe applications; and easily leverage existing content to create customized communications.

Achieve professional-looking results

Don't have much design experience? No problem—PageMaker 7.0 software offers powerful design tools and hundreds of professionally designed templates, clip-art illustrations, and photos to give you a creative head start.

Incorporate text, graphics, and even images stored in databases into your layouts to create form letters, mailing labels, and catalogs. And when you're done, deliver your work in print or online by exporting it in standard file formats, including tagged Adobe Portable Document Format (PDF), which ensures your layout reflows properly on a variety of devices such as PDAs.

Work productively across Adobe applications

PageMaker helps you work more efficiently across Adobe applications. Directly import Adobe Photoshop® and Illustrator® files. And take advantage of a simplified export interface to specify Adobe PDF job options, bookmarks, and more.

Leverage existing content

PageMaker makes it easy to work with files created in popular business and layout applications. Convert QuarkXPress and Microsoft Publisher documents and templates to PageMaker files on-the-fly. Import content from files authored in the latest versions of Microsoft Office applications such as Word. And work with files created in earlier versions of PageMaker.

Create visually compelling brochures, newsletters, reports, catalogs, flyers, and more with Adobe PageMaker 7.0 software.

Adobe PageMaker 7.0

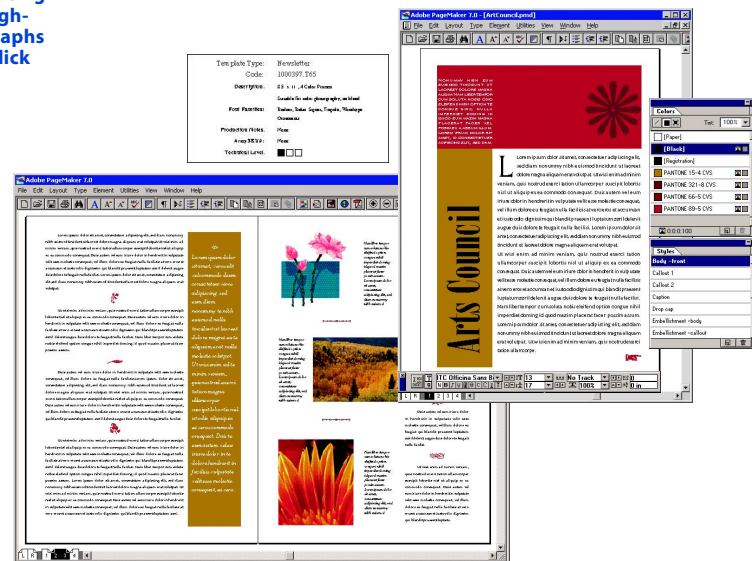

Key Features

With Adobe PageMaker, you can work at your own design level to achieve the superb results you require. Start with eye-catching templates or design your own unique layouts. Use included stock photographs or incorporate your own multilayer Adobe Photoshop graphics. Optimize your work for high-end printing or crisp on-screen resolution. Whatever your publishing needs, count on PageMaker for complete control in creating persuasive and effective communications.

Enhance your work by placing stock illustrations and high-resolution stock photographs in any document with a click of the mouse.

Get up and running quickly with professionally designed templates for flyers, newsletters, brochures, and more.

Achieve professional-looking results

- Take advantage of powerful, intuitive design tools.
- Create eye-catching layouts with more than 300 professionally designed templates, 300 photos, and 4,700 clip-art illustrations.
- Incorporate text, graphics, and even images stored in databases into your publications.
- Create and format simple tables of contents, indexes, and more.
- Optimize publications for print, press, and online distribution in standard file formats including Adobe PDF. (PageMaker includes Adobe Acrobat® Distiller® 5.0 software.)

Work productively across Adobe applications

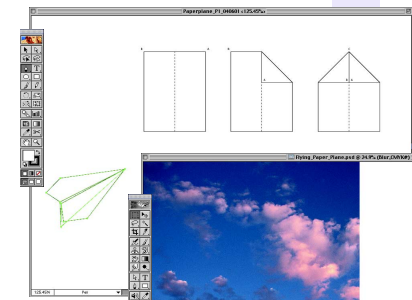

- Directly import files created with Adobe Photoshop and Illustrator software.*
- Import native Photoshop 5.0–6.0 files.
- Specify Adobe PDF job options, document security, bookmarks, document information, and view settings with a simplified export interface.
- Directly place Adobe PDF content in your layouts.
- Make your projects more portable by saving them as tagged Adobe PDF files, which reflow properly when viewed on a variety of devices, including PDAs.

* When using Illustrator 9.0 files in PageMaker, place or link Illustrator 9.0 EPS files to get accurate results.

Leverage existing content

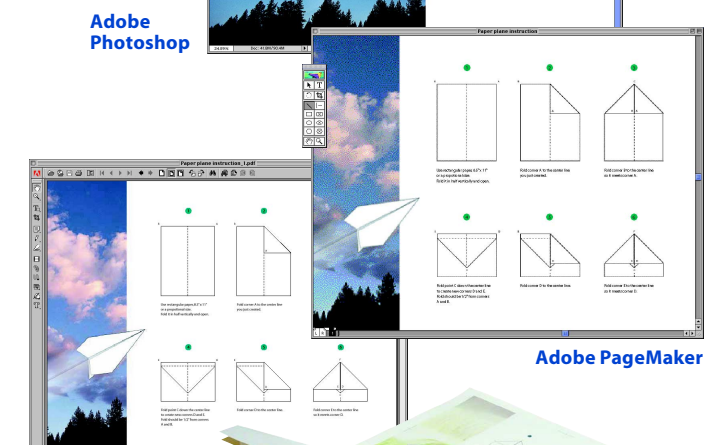

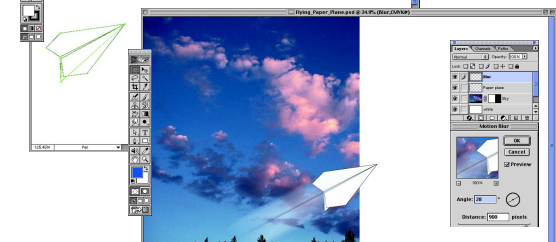

- Convert documents and templates created in Microsoft Publisher 97, 98, and 2000 (Windows only) and QuarkXPress 3.3–4.1.
- Repurpose content from files created in the latest versions of Microsoft Office applications such as Word.

Adobe Illustrator

Smarten up your layouts by directly importing your Adobe Photoshop and Illustrator content.

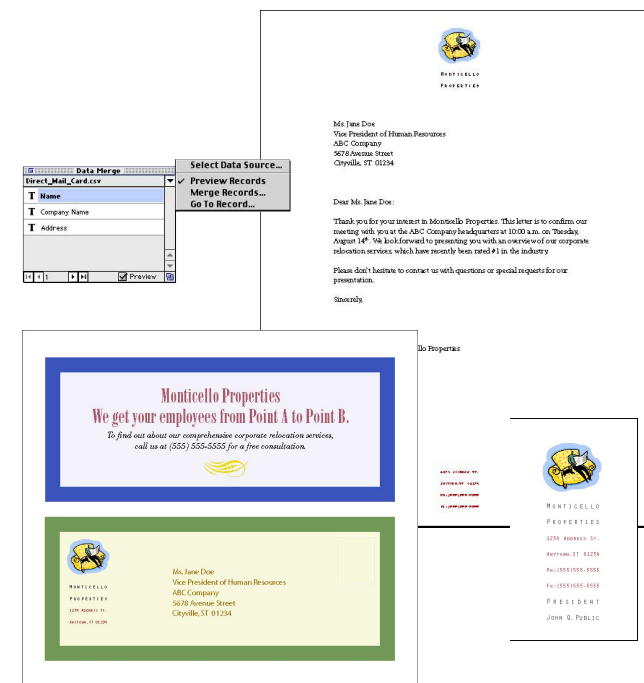

Adobe Photoshop

Adobe PageMaker

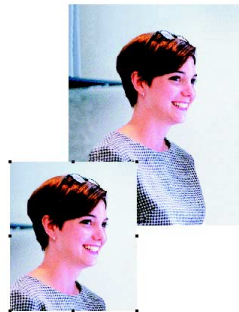

Adobe Acrobat

Output your work in a variety of standard formats, including Adobe PDF, for accurate, professional-quality printing on desktop and high-end printers.

Use the Data Merge feature to create customized collateral, collecting text, graphics, and images from a variety of sources.
